9. Add your name to the file name.
10. Click disk icon on the right side of the page.
11. Describe the changes you made in the box that appears.
12. Click commit.

Concept of Prose.io

Concept definition. This document describes posting information on the Prose.io website. Prose.io is one mechanism for posting material to Github. Every time a document is saved, or committed, it represents an entirely new document.

Note: Previous commits can be viewed by clicking on the "parent" number in the white box under the filename.
